

Ref **HMCTS FRAUD ON AND IN THE COURTS by RACKETEERING BIAS, PERSONAGE & BARRATRY**

1st January 2018 ref cases in Manchester 2MA90015 2MA91155 & Court of Protection 10370284

We have made every attempt to gain access to a ministry of justice court, to take to task relevant corporations, legal fictions and or the living beings in their full commercial capacity, responsible for our continued persecution & misery, in exile, from the United Kingdom corruption we have suffered.

It would appear, that the criminals are in full control of any access to her majesties court - HMCTS. It would appear that a man can no longer have unhindered access without 1st being suitability judged. **We were blocked.**

Not only this, but, upon issuing questions to the corporate Ministry of Justice CEO we were sent nothing in the replies but gibberish, **brush off letters.**

Our initial communications started in March 2017 with a curtesy notice, that eventually, after pressing further by letters, was acknowledged. UPON later serving to the CEO of the MOJ at her home address of **23 Arrow Rd Bow London E3 3HE**, an interlocutory notice of attachment to a commercial notarised liability contract/LIEN, demanding responses to the pertinent questions posed, **Susan Acland Hood [Susan-Elizabeth: ACLAND HOOD ANDREWS]** and her senior investigator representative, **Richard Redgrave**, failed to answer & failed to rebut the allegations of **fraud upon the court by RACKETEERING BIAS, PERSONAGE & BARRATRY.** **Now standing in LAW as the truth.**

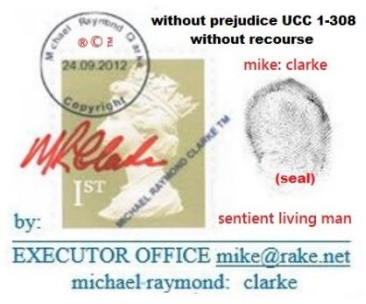

This has in turn left them with a £50 million binding liability contract that we intend to enforce in 2018. The contract has now been expanded to include **1** Judge Pelling, **2** Judge Jackson & **3** Judge Munby Published and hereby linked - <http://www.opg.me/1FULL70pageCONTRACT21122017.pdf>

In 2018 the average living being is totally unaware of the fraudulent activity that is being condoned within her majesty's courts by monopolised BIAS, using criminal acts of PERSONAGE & BARRATRY, judging in their own cause, basically, a huge multi-dimensional billion-pound patent fraud not only on everyone but primarily upon the vulnerable elderly & children, in which can only be termed as **financial rape by corporately licensed BAR thieves, condoned by Judge kickbacks, masked by unaccountability.**

The continued persecution of us, me 58, & carer of my 77-yr. old disabled mum is **beyond belief.**

The only response that the CEO of HMCTS has made is one of reporting me to the 'corporate' POLICE for Harassment. This is exactly what they did 5 years ago in order to distract, stop, silence and gag me, by intimidation, into silence, as others, in a conspiracy of collusion, simply in order **to continue perverting the course of real true justice.**

Having reported matters to the corporate police, up to today's date, they have done nothing but condoning the frauds too, **by silence.**
