Dear Charles

I refer to your resume and in particular your experience with;

Multi-jurisdictional assignments

as stated in the company write up.

Where your associate/criminal HUGH ADRIAN SCOTT JONES has forced an ex client, my mother, Ann Clarke, to live from an exchange rate for 4 and a half years amounting to losses exceeding £100,000.

Can you tell me does this fit anywhere with multi-jurisdictional assignments in your experience because according to the Court of Protection and The Office of the Public Guardian, their jurisdiction ends at England & Wales and so why would your associate/their agent continue to handle her financial affairs where his jurisdiction only covered UK property and not financial matters and that even if he can prove it why did he not place the finances in the currency of residence/emigration?

Kind regards,
Mike/Ann Clarke.
