----- **REPLY**

FAO **Dan**: Window, Sergeant 53HT in your capacity as a public servant acting on your oath to serve and protect the public and as a **man in your full commercial liability**. **Date 13.12.2017**

1. We need to clarify the jurisdiction you are operating under.
i man will only consent upon the land jurisdiction, not admiralty commerce, fictions.
For example, my name is **Mike**: not Mr Clarke... I do not claim a title for you to contract with.
i am living and breathing, a sentient being that will respond to a verified claim from another living being, so if you are contacting me as such, a man I will respond as a man and you must not assume in any way we are contracting in the fictional world of admiralty commerce.
Should you need advice please seek legal help on this.
2. It is my understanding that a policeman or policewoman will act upon his/her oath of office where as a police **officer** is enforcing statute acts eg dead legal fiction corporate rules of commerce under admiralty contract law which **I do not stand under, nor do I consent to.**
3. The complaint made by me was one of **harassment** aggravated by **threatening behaviour** by PC VIRK in this **intimidating** recorded by electronic witness, phone call by her to me.

4. I currently state that there has been **FRAUD UPON THE COURT** and this matter I have attempted redress by **reporting to police** & filing claims and or applications to court several times for remedy and **all attempts** have been blocked, meaning, **HMCTS is closed to man**. This matter was raised rightly so with the CEO of HMCTS who has not responded personally but has handed the matter to underlings whom have failed to address my serious complaints of **FRAUD UPON THE COURTS** responding only with gibberish, brush off content.
5. So serious is the matter we live in exile 5 years, my 77 yr old **disabled** mum and me, from the UK because of such frauds, frauds that according to the **fraud act** and the **companies act** the CEO carries the burden and can be brought to account and so service of documents quite **legitimately** have been made upon CEO personally at her home address **23 Arrow Rd LONDON**
6. Your officer, one assumes acting in her **corporate capacity** and not in compliance with her oath of office, got rather shirty, stating that **I will not** send documents or emails or letters to the address of a CEOs home, of the Ministry of Justice, that has the liability for fraud, without providing a response to my allegations. **Virk's attitude** was threatening, stating if so, I will be arrested, and her tone was one of **harassing intimidation** leading to my complaint.

7. I have every lawful right to file a claim upon those whom I deem are committing a tort against I man which is the case in hand and harassing intimidation by a corporate police officer will not be tolerated, to the point I am prepared to add any officer to the contract served upon the CEO of MoJ as an interlocutory attachment to the liability for any attempts to derail such a contract in which I have every right to. **If THE POLICE cannot stop FRAUD I will.**
8. The allegations against the establishment have been made clear and documented in diary format over the years upon our website www.opg.me and **ACTION FRAUD LONDON** did identify fraud where matters were handed over to **LANCASHIRE POLICE** who promptly shelved it <http://www.opg.me/undatedpoliceletter13072017.jpg>. This then was reported to the IPCC whom passed the matter to the POLICE STANDARDS COMMISSION to investigate which is **current**. I hereby hand you the associated reference numbers for you to connect to...

9. **THE POLICE** whom we have reported to, serious allegations of white collar crime going on within her majesties, now corporate courts, that they have not, **repeat NOT**, investigated but yet they have and are being used as a tool to intimidate and harass victims of crime to prevent the investigation of that crime, there is a name for this and it's called **RACKETEERING**. You the police are being used by white collar criminals as a harassment conduit to facilitate fraud upon the court, the vulnerable, the elderly & children on a multi-billion-pound level. A matter that needs addressing in the serious interests of the United Kingdom public.
10. **Dan**, I am liaising with you as a **man** and on this basis, I stand under jury courts of common law for redress, which has been denied, but due process, I am entitled to, but criminals at very high levels are trying to prevent such redress by using their own judges to judge in their own cause, to protect **FRAUD!** A fraud I am going to address by hook or by crook, all you need to do is decide which side of the fence you are going to fall on, because in the Nuremberg trials anyone claiming I was only doing my job and thus told what to do, **will not stand as a defence.**
11. **I reported this matter expecting an apology.** Failing this, I will require the CEOs name & email of your **police business**, where this reply **I expect copied to**, to consider a liability attachment. **PC VIRKS threat & action to issue a notice of harassment holds no teeth & has no jurisdiction.**
