Dear Susan

A year ago, we made abundantly clear our problems with HMCTS.  
We filed upon you by recorded delivery all the relevant documentation to show the frauds being condoned by your office.

You obviously chose to ignore all correspondence, bar the exception of using threatening harassment via the POLICE, all fully recorded and documented.  
We again raise this issue once more with you before starting further proceedings in this matter.

<http://opg.me/5pageoverview.pdf> & <http://opg.me/LIENcontract2018.pdf>

Unless some action is taken to resolve our differences, we will seek two further avenues,

1. We will renounce our British Passports via the MEDIA & 10 Downing St
2. & also press forward with a claim against you for HUMAN RIGHTS FRAUD

We attempted to be honourable to find resolution, we also attempted to file within HMCTS for a resolution, but have been wilfully ignored and blocked, from any procedures. Why is that??

Our position is such that seeking the state protection of another country is our only option, which should not apply in today's world 2019.

Our injustice seems to hold no other options, why is that?

My disabled mother is 79 this year and I her carer 60, fortunately both in good health, but, the treatment of us as whistle-blowers to state judicial persecution and fraud upon us via the court of protection has been nothing short of diabolical. We unfortunately are not alone, there are others.

Your courts have failed to provide any safety net to STOP this injustice that is ongoing.

Your earliest response would be appreciated.
