To whom it may concern

I have opened with this heading for although I have an application purportedly from Ann Clarke I imagine it has actually come from Michael Clarke.

Most certainly the basis of the application is a statutory declaration by Michael Clarke.

I am not going to accept this application the major reason being that if it is considered a court has produced a judgement which is wrong the matter should be taken back to court to see if the judge will alter their judgement.

A second point is that the application is presented as coming from a person who is subject to an order by the Court of Protection. How can we accept such an application?

Mr Michael Clarke has no registered interest in this title.
