

Warning to Government

This is not a request that requires an answer, it does however require a response – by way of action on your part that demonstrates that you understand its substance and the seriousness of our intent.

The national collective political establishment has betrayed the ‘People’ by hijacking our sovereignty and engaging in criminal activities in a subservient role to a foreign power without our consent. This is in defiance of our constitution and an act of treason.

You do not need to know how many people we represent today, only how many we might represent tomorrow and you should know that our numbers grow daily. This letter thus serves as your window of opportunity to make amends and give remedy for the crimes committed against us. We will show compassion for those who recant and we will be ruthless with those who do not concede to the wishes of the people.

Ignoring this letter is not an option... if you think it is, then this serves only to demonstrate that your intellect is subservient to your arrogance. You may feel that you can ignore it because you are too powerful, but to do so is to underestimate the seething resentment that the people feel for the political establishment in general.

You have acted in contempt of the principles of democracy and shown total disregard for our right to govern ourselves.

For the past several decades the ‘People’ have been treated with extraordinary and total contempt by the collective political establishment. It has not mattered which political party has been in office or “power” as you insist on calling it, nothing ever changes. We are continually subjected to the same global agenda. We have been used and abused like pawns in your game of supremacy in which a dynastic ruling class see themselves as ordained to rule as masters – with impunity, whilst we the people, as virtual slaves, are supposedly destined to obey – without question. You have persistently and consistently undermined our democracy by agreeing to treaties with foreign political elites who have no business in our affairs.

You have rewarded yourselves with the trappings of office – high salaries, luxuries denied most of us, privileges, bonuses, pensions, prestige and benefits that we can only dream of... whilst burdening us with ever-higher taxes, derisory pensions and declining standards of public services. It is we who pay the price for your malfeasance.

The story of our ‘People’ over the past several decades that will be told in the history books of tomorrow is the story of betrayal, greed, corruption, nepotism, treason and modern-day fascism – the latter of which manifests itself in the global agenda being imposed upon us against our will.

The United Nations – a step process towards TOTAL global governance is now fully exposed. Built on lies and deceit is being hoisted by its own petard – the edifice is crumbling but still the political elite like demented fools, continue to feed on their own delusions. The docile masses, mesmerized by trivia, propaganda, complacency and ignorance have still somehow managed to grasp some basic elements of the truth, alerted almost certainly by the blatant and arrogant refusal of the political elite to tell the truth even when it stands proud in the rubble of political deceit and betrayal.

The political classes are discredited at every level. They rant about the benefits of our subjugation to a foreign enterprise, peace, prosperity and democracy where in reality chaos, dictatorship and corruption reign supreme. Western economies are on the brink of collapse because of the corrupt banking cartels, there is visible resistance on the streets and people call for lawful rebellion. But less known, there is clandestine resistance behind closed doors. Whilst the majorities advocate a peaceful uprising, the extremes will always be in the mix and when passion and anger are fused and

those aggrieved can find no remedy... violent resistance is as understandable as the passion for life itself.

The police and militia that you currently rely on to defend yourselves against the people's retribution... are made up of our own, they are not your people – and when they learn about your betrayal and your intent... AND THEY WILL – they will turn against you. Their awakening, which you cannot stop, is your Achilles heel. Your greatest fear must be that we will impose upon you the regimes and repression that you had planned for us.

People are meeting in groups across the country, talking across oceans... they are disparate, disorganized and without an effective plan to repel the global agenda...as yet. BUT a leadership is emerging... organizers are coordinating and small groups are linking to form larger groups. The dichotomies of left v right, Christian v Muslim, black v white, Catholic v Protestant, which have been used to great effect to divide and conquer in the past, will find no favour in this war. The call to arms that will unite us will be 'the people v the global elite' – the cry will cascade street to street and find easy passage and universal support – for our common purpose has greater value and strength than yours.

We have a constitution – which you ignore. We have been denied our democratic rights, regardless, we have clearly expressed our wishes, in one opinion poll after another, that we do not want to be governed by a foreign un-elected officialdom, but still you disregard us. We are promised a referendum on our future, but then you ignore the results or recant. You speak in support of our views when in opposition, but act to the contrary when we elect you.

You consult with corporate executives, international bankers, non-government organizations, international charities, academia, foreign dignitaries, political elites, think tanks and lobbyist – collectively a tiny minority, who do not represent us. These groups all emanate from the same social strata, with their own agendas to satisfy and all funded by the same cartel. You take note of their every whim, but you care not a jot for what we think or what we want. Your children are given jobs, with big salaries fresh from university and then rapidly climb the corporate ladder as a reward by the same corporate bodies who you have favoured with your decisions. Our children must make their own way in an increasingly desperate world. Your corporatism suppresses our freedoms with deliberate and malicious intent.

You accommodate tyrants, dictators, arms dealers and all manner of dubious characters, with whom you are happy to keep company. You turn a blind eye when the smell of money wafts your nostrils... it suppresses the stink of corruption and evil. Your moral compasses are defunct... your values deplorable and motives despicable. Our soldiers die to service your corporate agenda – their blood is on your hands.

You are educated at the same elite schools and members of the same elite clubs and you allow these influences to override the consideration which should be paramount in service of the people. You have adopted the "I'll scratch your back if you scratch mine" philosophy... because you have learnt from your predecessors that corruption and deception do indeed pay. The United Nations Security Council is awash with it and you have determined to get your snout in the same trough. You take comfort from the fact that you control those who have the authority to indict you for your criminality... because they too have fallen prey to the corruption. You have sold off our national resources to your friends, divided communities, deprived villages and towns, undermined, destroyed and bulldozed indigenous communities. You have laid waste where once prosperity was enjoyed. But you have not suffered... you have remained aloof, disengaged, uninvolved – removed from the debris and the misery that you have wreaked upon the rest of us.

Our farms no longer feed us with the nutrients we require to sustain healthy lives, crippled by regulations, supranational mining contracts made to favour foreign farmers or 'Coal Seam Gas Fracking' that is destroying the once fertile soils of our landscape. Our armed forces are forced to commit crimes against humanity by the requirement to adhere to the unlawful and communist

manifesto of the United Nations Charter and we see foreign troops being trained on our own soil on the pretence that they may be needed to protect us... when the reality is they are being trained to subdue us... to protect you from our vengeance. Our children are victims of social engineering in the schools and declining standards of education. They are being sexualized by explicit exposures before they have the emotional maturity to be able to cope. You are destroying their minds and their childhoods.

You have engineered a police state with legislation that empowers you at our expense and you have been blatant in your contempt for our democratic and constitution rights and our common law, which have been known to us for centuries. You deny us our rights and our freedoms and contemptuously imply that you can provide us with a Bill of Rights. Would we seriously trust a thief with our wallets? You have corrupted our courts by appointing judges who are contemptuous of our common law and installed a law society that disperses Maritime/Admiralty Law through the peoples courts .

You have dissected our nation and sold off our infrastructure. We are forced to buy our own water from foreign corporations which grow rich on the back of our suffering. You are then rewarded by them with lucrative directorships when you slip quietly from office with your bulging pensions. You remain oblivious, unconcerned... disconnected. We will no longer be ignored as you go about your globalist agenda. We will resist your controlling and petty rules and regulations... we will resist your fines and penalty charges and challenge your corrupt and biased judges, we will defy the over-zealous police, and your oppressive and unlawful taxes.

It is our intention to govern ourselves... we do not seek your permission – this is our right. You have had your opportunity and you have failed. We will take control of our own lives in stages, as and when it suits us. Our numbers will grow as we show by example that prosperity is the natural consequence of honest and fair governance. We will expose you for the parasites you are.

This country has a constitution – which you ignore. We have Magna Carta, we have trial by jury and habeas corpus. We have our customs, traditions and common law. We have the right of petition, free speech, and free movement and above all... we have the right to govern ourselves. These are our inalienable rights – they are not privileges granted to us by you or your ilk. They cannot be taken away or extinguished at the whim of political diktat or through corrupt judicial process and certainly not at the behest of foreign undemocratic institutions. You have no authority to dictate... your duty is to serve.

We are a sovereign nation... a proud people. We have watched our country slowly destroyed... by you – we now see clearly what you have done... your purpose and your betrayal. We will honour our inheritance – the freedoms fought for and secured for us, and we will ensure that we will pass this on to the next generation, to our children and theirs.

You have been sent this letter by a constituent. On sending a copy to you, they have also registered your name with our coordinators. This will remain with us as evidence for your trial... for treason, when necessary. It's your choice.

We The People - WE ARE SOVEREIGN
